Stewardship Reflection

02/09/2020

In our discipleship, God has placed great faith in us! It is our mission to look for ways to improve the world around us — each and every day! In today's Gospel, Jesus refers to us as "the salt of the earth" and "the light of the world." First of all, these are tremendous complements and should be received as such. Secondly, with these words Jesus has empowered us to realize just how influential each one of us can be! It doesn't take very much salt to bring flavor to a bland meal. It doesn't take much light to brighten a dark space. As you go about this week, spreading the kingdom of God, remember the words of St. Teresa of Calcutta: "Not all of us can do great things. But we can do small things with great love." Pray that the Holy Spirit will guide you to opportunities to share God's love in your little corner of the world!

Come CELEBRATE with us!

Bishop Kemme with Father Curtis Robertson, Father Chad Arnold, Father David Michael Htun and Father Andrew Labenz will be celebrating **Holy Mass at 9:45 am on Friday, February 21st**. Our music will be led by Father David Voss with Joe Dockers-from Wichita. Come join us for an uplifting Holy Mass with the area sixth graders as we pray for a continuation of holy priests, sisters and religious from southeast Kansas.

Light a Light Rather than Curse the Darkness

Terry Fox was a 22-year-old student at Simon Fraser University in Canada. In 1977, he developed bone cancer and had to have his right leg amputated. When his old high school basketball coach heard about the tragedy, he sent Terry a newspaper article about an amputee who ran in the New York Marathon. The article triggered Terry's imagination. He knew he had only a few years to live, and he wanted to do something significant with them. He decided he would try to run across Canada from Newfoundland to British Columbia, a distance of 5,000 miles. He would ask people to sponsor him and give the proceeds to cancer research. For 18 months, Terry practiced running on the artificial leg. Finally, on April 12, 1980, he began his run. He dipped his artificial leg into the Atlantic and set out across Canada. In his pocket he had pledges totaling over a million dollars. Then 114 days and 3,000 miles into the run, Terry suddenly collapsed. The cancer had spread to his lungs. He would be unable to complete the run. When news of Terry's collapse broke, people from all over Canada began sending pledges to him in the Hospital. In hours, over \$24 million was pledged. A few days later, Terry died. If anyone had a right to curse the darkness, it was Terry. But he was too big for that. He decided to light a candle. And that light has been shining ever since. A movie has been made of his life. A stamp has been issued in his honor. And he is the youngest person ever to receive his nation's highest honor, the Order of Canada. To this day, Terry still excites the imagination of people. How often do we simply curse the darkness around us, rather than seeking to be the light that helps dispel that darkness?
