

VALUE THEM BOTH

What you need to know.

VALUE THEM BOTH is the proposed state constitutional amendment up for a vote by Kansans on August 2nd. The amendment is a reasonable response to an extreme ruling by the Kansas Supreme Court in 2019 that declared abortion to be a virtually unlimited and unrestricted right. A simple majority YES vote on VALUE THEM BOTH corrects this horrific misinterpretation, restores the voice of the people, and protects both women and preborn babies.

ABORTIONS IN KANSAS

Since the 2019 ruling, two of our life saving and protecting laws have already been overturned and are no longer enforceable.

- ✗ Live dismemberment abortion ban, struck down April 2021
- ✗ Clinic safety, sanitation, and inspection law, struck down December 2021

We have seen an increase in abortions within our state, which hasn't happened in more than 25 years.

- 13% increase** in the overall annual number of abortions
- 17% increase** in live dismemberment abortions
- 16% increase** in abortions performed on out-of-state residents

WHAT WILL VALUE THEM BOTH DO?

Voting **YES** for VALUE THEM BOTH will:

- ✓ Restore our state Constitution to the way it was before the extreme court ruling cleared the path for virtually unlimited abortion in Kansas.
- ✓ Protect commonsense restrictions on the abortion industry and prevent taxpayer-funded abortion.
- ✓ Restore the voice of the people to regulate the abortion industry through their elected officials.

Does Value Them Both impact ectopic pregnancies, miscarriages, or contraception?

NO. The abortion industry wants to make this campaign about anything but painful, late-term abortions and securing common sense limits. They are waging a campaign of confusion. Value Them Both is about empowering Kansans to make crucial decisions that can better protect women and babies.

Kansas has a very clear legal definition of abortion- K.S.A. 65-6701(a).

- The treatment for an ectopic pregnancy is NOT an abortion.
- The treatment for miscarriage is NOT an abortion.
- The treatment for septic uterus is NOT an abortion.

Aren't there already regulations on the abortion industry?

An unregulated and unrestricted abortion industry is the very reason we need Value Them Both. The ban on horrific live dismemberment abortions—at least nine occur every week in Kansas—has already been nullified. Every other abortion law or regulation is now, in the very words of the Kansas Supreme Court, “presumed unconstitutional” (pg. 72 of the Hodes ruling). Without Value Them Both, Kansans should expect remaining existing Kansas abortion laws to be struck down, a complete chilling effect on any new reasonable abortion regulations, taxpayer funding of elective abortions, and a continued increase in the number of abortions.
